## Quick Script / Letter Text

Dear Representative,

I am your constituent. I urge you to oppose and work to overturn the five Trump Administration orders listed above. They strip voting rights, criminalize a free press, accelerate the climate crisis, militarize immigration policy, and weaken organized labor. Democracy cannot survive this path.

I expect you to:

1. Cosponsor legislation reversing these directives.
2. Issue a public statement condemning authoritarian policies.
3. Vote NO on any bill that advances these agendas.

History will record your choice. Stand with democracy.

Sincerely,

---
